We are excited to announce our new partnership with  
Ladder Internships!

## LADDER INTERNSHIPS

Startup internships for ambitious high school students

Why do an internship  
in high school?

### Explore a Career

Work with the world's best founders and find out what a career looks like. Learn what a real work environment is like.

### Build a real-world project

Create something that matters in the world. Whether it's a market report, an app, or a strategy.

### Gain an advantage in college admissions

Showcase a unique experience that few high school students have. Show tangible outcomes (such as a product) that reflect your interests.

### Build a professional network, now

Work with the very best - from Harvard Business School, to Y Combinator, to ex-McKinsey founders.

# THE TORCH

## Asking All Young Artists

We are looking for any student artists (college or high-level high school) (preferably from HBCUs, community colleges, or BIPOC) who might want to submit their art to Bowie State U's lit magazine! They are all set on their writing but they really want to feature more visual art!

Please send hi-res photos to [sbjohnson@bowiestate.edu](mailto:sbjohnson@bowiestate.edu)

*see the world?*
